Submitted to His Highness.

In reviewing the report on the working of the Special Hospitals in Mysore for the year 1907, the Government in their Proceedings No.13862 Medical 230-07-4 dated 20th June 1908, directed that separate proposals may be submitted regarding

1) additions and improvements required to the new Leper Asylum buildings,

and 2) the increase of the menial establishment attached to the Asylum.

2. The Sanitary Commissioner has accordingly submitted for the favourable consideration of Government the proposals sent up by the Health Officer, Mr. A.K. Pani, under both these heads.

Paper under approval

3. The recommendations as regards the menial establishment have been returned to the Senior Surgeon for submission through the Comptroller, with a proposition statement.

4. As regards improvements and additions to the Building, the Health Officer's proposals involve the addition of two wards and buildings for store room, office and places of worship, cementing the floor of

the

wards &c., giving a water service and supplying electric lighting thereto.

5. It is ascertained from the Chief Engineer that a project amounting to Rs.15,780 for additions and improvements to the Building has been prepared and forwarded to the Senior Surgeon for countersignature.

6. Both the Councillors agree as to the necessity for the work and as to the desirability of taking it up as soon as funds can be provided. The details of the project will have to be scrutinised on receipt of the plans and estimates from the Chief Engineer. It may not for instance, be necessary to supply electric lighting and the work to be undertaken may in fact be confined to the minimum of actual requirements. But the project may be generally sanctioned. If possible, an allotment will be provided for the work in the next year's P.W. Budget.

OFFICE OF THE SANITARY COMMISSIONER IN MYSORE,

Bangalore, Dated the.....9-6-1908.

D 3298

From

Lt.-Col. John Sc[illegible], I.P.I.M.S.,
Sanitary Commissioner to the Government of
His Highness the Maharaja of Mysore,
BANGALORE.

Rec'd 11-6-08
51201

To

Chandrasekhara Iyer, M.A.,
Secretary to the Government of
His Highness the Maharaja of Mysore,
General and Revenue Departments,
BANGALORE.

Sir,

With reference to para 3 of Govt. Pro. No. 13362 Mdl. 230-07-4 dated the 20th June 08, I have the honor to submit herewith for the orders of Government, proposals regarding (1) the additions and improvements to the new Leper Asylum buildings and (2) the increase of the menial establishment of the Leper Asylum at Bangalore, received from the Health Officer, Bangalore City,. The proposals seem reasonable and I recommend that they may meet with the favourable consideration of Governmont. In regard to (1) I would add that the present Leper Asylum buildings are very defective and unsuitable. The walls & floors are not such as can be scrubbed and washed daily and kept thoroughly clean. The accommodation too is not enough. The lepers are housed together in one large ward which is very unsuitable. There are different castes among these men & women and they have naturally scruples to remain together in the same ward. The ward is also not spacious enough for the number put in. Besides, one man's sores are enough suffering and nuisance to himself and when many are housed together in the same building the result would

would be unbearable. The corner rooms used as wards are also too small. It would be an advantage if cottage wards are put up and each leper is housed separately and given some congenial occupation. This would very much add to the comforts of these unfortunates and make the colony attractive and thereby bring under control those vagrant lepers who are now seen roming about the city to the great inconvenience & disgust of the people.

I have the honor to be,

Sir;

Your most obedient servant,

M.D.,
Lt:Col:I.M.S.,
for Sanitary Commissioner, N.G.

Improvements and additions to the Leper Asylum.

(A) The walls of the present building to be finely plastered and, 3 feet of the walls from the floor inside the wards as well as of those of the front and back verandahs of the building to be cemented or tiled with Mangalore or glazed tiles

The flooring of the wards may be cemented or paved with flooring tiles, as it is, the water stands here and there when washed for want of level. If convenient the Asylum may be lit with electric light as has been the case with other institutions, in which case the monthly recurrent charge of a surface will be saved.

SENIOR SURGEON & SANTY: COMMR:
JUL
DAN
NOV

(b) Additions— Two wards one for European male patients and one for female patients each one spacious enough to accommodate 4 patients. A house building providing in one block 3 kitchens, one for Europeans, one for meat-eating classes and one for Brahmins

A store-room and office in one block three small rooms as places of worship

worship for the Mahomedans, Hindus and Christian patients.

Water service in the Hospital is very necessary as it is reported that the one in the Epidemic Diseases Hospital which is used also by the Lepers is objected to by the other patients
